

# Wooden Pallet

1200 x 800 mm

## Overview

The 1200 x 800 mm CHEP pallet is a general purpose platform that can be safely used for most applications in the distribution and transportation of goods and products in Europe.

To ensure compatibility with different supply chain requirements, pallets are available in three standard sizes.

## Features and Benefits

- Reduce product damage and increase load stability through robust construction
- Increase operational productivity through consistent specification – pallet is suitable for automated production and warehousing facilities
- Enhance efficiencies during storage and transport with consistent 4-way entry design ensuring compatibility with all standard equipment
- Reduce health & safety risks to the workforce – quality materials ensure pallets can be handled safely

## Specifications

### Dimensions - in inches

Length	Width	Height
47.2	31.5	5.7

### Window / Pallet entry - in inches

	Width	Height
47.2 in side	15.1	3.9
31.5 in side	9	3.9

### Nominal Capacity and Weight

Tare weight	55.1 lbs
-------------	----------

### Configuration and Stacking

CHEP recommends a maximum rating of 1000 kgs as a safe working load, and not to exceed 4000 kgs when stacking loaded pallets on a solid surface. Empty pallets can be stored 40 high.

## Notes

### Materials

**Wood:** quality timber from a controlled selection of different wood types

**Paint:** water based, complying with the relevant European legislation

**Nails:** either standard or stiff stock wire, complying with the European legislation on heavy metal content

### Handling

- Maximise the use of the pallet surface
- Minimise lifting from the undersides of the skids
- Rack the pallet across the long side

### Performance and Standards

A general purpose pallet that can be safely used for most applications in the distribution and transport chain in Europe.
