

Bearer Pallet

1500 x 1200 mm

Overview

The 1500 x 1200 mm wood pallet is a 2-way entry non-distributive platform designed for the unitised load storage and handling of bagged products, primarily in the milling industry

Features and Benefits

Consistent Specification

- Increases operational efficiency.
- Manufactured from selected timber to strict specifications.
- Robust with no compromise on quality.

Industry Compatible

- 2-way entry non-distributive pallet.
- Designed for unitized load storage and handling of bagged products, primarily in the milling industry.
- The non-reversible pallet is constructed with 4-heavy duty bearers to provide a totally rigid platform.
- Bevelled leading slats on the top deck are butted to the second slat for additional strength and to provide a raised leading edge to give greater stability to unstable loads. With bagged product leaning towards the centre of the pallet, the load is for more stable for ease of movement and storage.

Environmentally Friendly

- 100% recyclable materials.
- Upon return to CHEP every pallet is inspected and any damaged elements replaced to ensure that only top quality pallets are available for use

Specifications

Dimensions - in inches

| Length | Width | Height |
|--------|-------|--------|
| 59.1 | 47.2 | 6.9 |

Nominal Capacity and Weight

| | |
|-------------|-----------|
| Tare weight | 127.9 lbs |
|-------------|-----------|

Notes

Materials

Timber (SA Pine).

Painted blue on all 4 sides.

Logo and ownership message painted white.

Recommended Use / Applications

Storage and handling of bagged products, primarily in the milling industry.
