

Overview

The extensive usage of our standard hardwood pallet across Australian industry provides the basis for low cost and seamless unit load movements within and between customer supply chains in Australia.

Our hire pallet service also benefits customers because of our acceptance of responsibility for maintaining pallet quality standards, and our commitment to ensuring pallet stocks adequately meet customer needs.

Freed from concerns about these issues, customers can focus on their core business activities such as product manufacturing, transport, distribution and warehousing services.

Features and Benefits

- Universal acceptance across Australian industry
- Repair and maintenance via CHEP's service centre network
- Pallet relocation managed by CHEP
- Hardwood three bearer construction
- Efficiency of unit load movements within and between customers
- Compatibility with existing supply chain infrastructure – warehouses, racking, trucks, fork lifts, etc.
- Consistency of repair and high product quality
- Assurance of pallet availability to meet customer demand
- Pallet durability and strength that ensures reliability of performance

Specifications

Dimensions - in millimetres

Length	Width	Height
1165	1165	150

Nominal Capacity and Weight

Tare weight 43 kgs

Configuration and Stacking

With uniformly distributed payload may be racked with 2,000 kgs, and 10,000 kgs when static

Notes

Materials

Hardwood

CHEP Code

10001 - Wooden Pallet
