

Black Foldable RPC 37L

(for supply to Progressive Enterprises)

Overview

Black Foldable Crate - Red embossed code. A foldable, Reusable Plastic Crate (RPC) one of three sizes specifically designed for the New Zealand market. The unique design of the crate meets a variety of handling demands.

The three crate sizes are modular in design, allowing both column and cross stacking when erected and have a consistent height when folded.

CHEP has installed state-of-the-art equipment to wash and sanitise every crate after each use.

Features and Benefits

- New Zealand footprint with straight walls
- Reduced incremental stacking height
- Fully vented design
- Foldable design
- Ability to cross and column stack
- Strong, robust design
- Easy to assemble and disassemble
- Individual barcode identifier
- Provision for RFID tag attachment
- Design compatible with automated crate erecting equipment
- Compatible with plix and fibre trays for improved product protection
- Reduced return transport costs
- Enhanced pre-cooling efficiencies
- Maximum air-flow extends shelf life of products
- Significantly reduced storage requirements
- Less product damage by reducing bulging, breaking and collapsing
- Enhanced load stability
- OH&S handling efficiency
- Improved track and trace options

Specifications

Dimensions - in millimetres

	Length	Width	Height
External	597	398	187
Internal	563	364	176
Folded	597	398	49

Nominal Capacity and Weight

Maximum capacity	37 ltrs
	0.04 m3
Maximum load weight	20 kgs
Tare weight	1.94 kgs

Notes

Materials

Food grade Polypropylene
