

Retail Beverage Tray

Multi Purpose Merchandising Solution

Overview

The CHEP Retail Beverage Tray employs a one-touch merchandising system designed to increase product availability through bulk replenishment and minimise out of stock and lost sales. The beverage tray is configured to carry all sizes of PET carbonated soft drink bottles: 1.25L, 1.5L, 2.0L and 2.25L, with products displayed in 24 and 15 bottle configurations on the same tray footprint.

The CHEP Retail Beverage Tray can be used in fully automated packing systems. It is lightweight, stable and protects bottles in transit. Its modular design works in harmony with CHEP plastic Retail Display Pallets, carrying four or five column height configurations.

Features and Benefits

- Enables one touch movement from production line to in-store retail display
- Reduced handling lowers the risk of product damage through the supply chain
- Unique multi-purpose tray accepts 1.25 litre, 1.5 litre, 2.0 litre and 2.25 litre PET carbonated soft drink bottled products
- Smart design ensures load stability
- Increased transportation yield delivered through five column height configuration
- Modular design works in harmony with CHEP plastic retail display pallets and CHEP standard pallets
- Low profile stacking when empty allows for transport & storage efficiency
- 100% recyclable
- Side location assistance ribs prevent trays when loaded side-by-side from sliding and give additional stability to loads in transit
- Foodgrade 100% polypropylene virgin plastic material
- Eliminates one way cardboard packaging

Specifications

Dimensions - in millimetres

Length	Width	Height
580	388	67

Nominal Capacity and Weight

Tare weight	1.45 kgs
-------------	----------

Configuration and Stacking

Units per pallet layer on Retail Display Pallet	2
Stacked layers when open	5
