

### Overview

Reusable Plastic Crates (RPC) in three sizes specifically designed for the New Zealand market. The unique design of the crates meets a variety of handling demands, Module in design allowing column stacking when erect and have a consistent height when folded.

### Features and Benefits

- Patented lift lock latch mechanism
- Safe and easy to assemble and disassemble (no force required)
- Lowest repeat height of any RPC available in New Zealand
- Strong, robust, foldable design – reduced transport costs and storage requirements, less product damage
- Individual barcode identifier – improved track and trace options
- HACCP certified wash process
- Faster and more efficient cooling
- Scalloped sides increase capacity and reduce product damage
- Increased merchandising attractiveness

### Specifications

#### Dimensions - in millimetres

	Length	Width	Height
External	600	400	240
Internal	577	372	228
Folded	600	400	28

#### Nominal Capacity and Weight

Maximum capacity	49 ltrs
	0.05 m3
Maximum load weight	20 kgs
Tare weight	2.10 kgs

#### Configuration and Stacking

Units per pallet layer	5
Stacked layers in transit when open	10
Stacked layers in transit when folded	125
Stacked layers for storage when open	10
Stacked layers for storage when folded	125
Return Ratio	8:1

#### Temperature Range

Minimum / Maximum	-10 °C / 60 °C
-------------------	----------------

### Notes

#### Materials

Polypropylene

#### Recommended Use / Applications

Fresh Fruit and Vegetables
