

Pooled Half Pallet

North America (40 x 24 inches)

Overview

Wood and metal half pallet (40 x24 inches) for North America.

The robust CHEP Half Pallet is an innovative Store Fulfillment Solution designed to improve brand awareness, drive sales, increase on-shelf availability and enhance retail visibility for your product on the store floor.

It's consistent specification can decrease operational costs, allows for better planning, and improves sustainability within the supply chain.

The CHEP half pallet helps create value for you and your customers whether it's being used for a retail promotion or in-line (in-aisle) replenishment.

Features and Benefits

INNOVATIVE DESIGN

- 4-way entry is compatible with 21" standard pallet jacks on the 24" side
- Provides greater efficiency in pallet loading and unloading
- Up to 90% top deck and 38% bottom deck coverage decreases product damage
- Consistent specification
- Increases operational efficiency

HALF PALLET BENEFITS

- Suitable for in-store display
- Retail-ready packaging
- Small quantity orders
- Reduces distribution and retail labor

Specifications

Dimensions - in inches

Length	Width	Height
40	24	5.6

Window / Pallet entry - in inches

	Width	Height
40 in side	29.9	4.9
24 in side	23.1	3.2

Nominal Capacity and Weight

Maximum load weight	1200 lbs
Tare weight	38 lbs

Load stability differs from standard 48 x 40 inch, full-sized pallet.

Half pallet has been rated for single unit loads of up to 1,200 lbs., not to exceed 4,800 lbs. when stacking loaded pallets on a solid surface.

Pallet is not designed for edge racking.

The limiting factor for floor stacking is typically lateral stability, not maximum loading.

Empty pallets can be (stacked) stored up to 19 high in a trailer.

Notes

Materials

Wood – Quality timber from a controlled environment. Primarily kiln-dried Southern Yellow Pine

Blocks – Galvanized steel and wood

Nails, nuts, bolts

The pallet has natural wood surfaces with perimeters painted CHEP Blue for ease of identification.

Performance and Standards

A general purpose pallet that can be safely used for most applications. Pallets are not rated for racking applications.

Truck Load Quantity

1,000 pallets
