

Half Display Pallet

800 x 600 mm

Overview

CHEP has introduced a Half Display Pallet specifically designed for the New Zealand market. The Half Display Pallet can be used for Impulse, Off Location and in Aisle displays/promotions.

The Half Display Pallet is designed to be an end to end supply chain platform that enables product to be packed ready for display at the manufacturer/supplier and moved directly through the supply chain to the retail store.

The smaller footprint delivers the potential for increased product range per retail square metre compared to a standard pallet.

Features and Benefits

- New Zealand footprint
- Pallets can be racked with up to 500kg of product
- Provision for RFID tag
- 4 way entry
- Compatible with existing material handling systems
- Anti-Slip deck
- 100% recyclable
- Quicker and easier replenishment
- Improved on shelf availability
- Improved product visibility
- Decreased store disruption
- Better point of sale
- Enables cross docking
- Increased transport efficiencies
- Platform stability

Specifications

Dimensions - in millimetres

Length	Width	Height
800	600	160

Nominal Capacity and Weight

Maximum load weight 2000 kgs

Tare weight 9 kgs

2000kg static, 1000kg dynamic, 500kg racked

Notes

Materials

Food grade polypropylene

Recommended Use / Applications

Retail ready packaging

One touch replenishment

Retail displays
