

Quarter Display Pallet

600 x 400 mm

Overview

CHEP has introduced a Quarter Display Pallet specifically designed for the New Zealand market. The Quarter Display Pallet can be used for Impulse, Off Location and in Aisle displays/promotions.

The Quarter Display Pallet is designed to be an end to end supply chain platform that enables product to be packed ready for display at the manufacturer/supplier and moved directly through the supply chain to the retail store.

Features and Benefits

- New Zealand footprint
- Ability to lock display stands onto the pallets through locking tabs
- Ability to slave 5 displays onto an existing CHEP Wooden Pallet 1200 x 1000
- Provision for RFID tag
- 4 way entry
- Compatible with existing material handling systems
- Nestable for reverse logistics
- Anti-Slip deck
- 100% recyclable
- Quicker and easier replenishment
- Improved on shelf availability
- Decreased store disruption
- Better point of sale
- Enables cross docking
- Platform stability
- Return efficiencies

Specifications

Dimensions - in millimetres

Length	Width	Height
600	400	145

Nominal Capacity and Weight

Maximum load weight	500 kgs
Tare weight	2.2 kgs
500kg static, 250kg dynamic	

Notes

Materials

Food grade polypropylene

Recommended Use / Applications

- Retail ready packaging
- One touch replenishment
- Retail displays
